

Mrs. Danielli's Class

Each week we grow in faith, hope and love of learning.

This week:

Room 8 had several students celebrate birthdays. Happy Birthday to all of our September birthdays!

Prayer and Reflection

Journal Time

I ask the students to take time each weekend to write 5 sentences in their religion journal. If they attend Sunday mass it can be a reflection about the readings, homily, or songs heard during mass. If they attend a different service, a reflection of what touched them during this time. The other option is to write about a time during a time of prayer. This practice introduces students to talking to God in the method of journaling. Journalling can be in the form of conversation, drawing something that comes to your mind as you speak to God, and a way to sort through what you are understanding from the scripture.

1

SCIENCE

This week we learned about the high and low pressure systems, and how meteorologists will use the data to predict the weather.

2

MATH

This week we worked on several strategies to solve word problems. This combined their skills from all of Chapter 1.

3

LANGUAGE ARTS

Grammar work included nouns and plural nouns. We began reading Unit 2 in Reading with Lewis and Clark.

Next week:

Monday

Music

Tuesday

Science Lab
Spanish
Gym
Library

Wednesday

School Mass
Math Test
Art

Thursday

Computer
Gym
Hot lunch

Friday

Spanish
