

Mrs. Danielli's Class

Each week we grow in faith, hope and love of learning.

This week:

Students have been learning about procedures and organization. We set up their multi-subject binder.

What we loved!

Learning their purpose as a student

The students were excited to plant a succulent plant to care for throughout the entire year. They learned how they will need to care for their education like they do for the plant. When their education is left unattended it will wither away. They are excited to show care and love to their plant too.

Secondly, I explained to the students my purpose each day, to love and serve the Lord. I have followed "*fiat*" for many years. *Mary's fiat* refers to when she told the angel "according to your word." I look forward each morning to say

Yes to the Lord. One way I am called to do so is through education of our children. The students created their own motivation posters to hang in our classroom.

“Peace begins with a smile.”
